Hector Street and Wolumba Street Bridge / Boundary Road Replacements

Dear resident and/or business owner

By now you may have noticed Hector Street Bridge, Chester Hill is closed as council commences critical replacement. The bridge will be closed in both directions for the duration of its replacement. We would like to remind regular users of their detour options:

- Light vehicles can detour via Elliston Street, Priam Street, and Boundary Road. Alternatively, light vehicles can use Campbell Hill Road
- Heavy vehicles can detour via Waldron Road, Park Road, and Wellington Road. Alternatively, heavy vehicles can use Woodville Road.

Work being undertaken:

- Demolition of existing bridges;
- Earthworks, drainage system upgrade, and service relocations;
- Construction of retaining walls, footpaths, driveways, kerbs, gutters and traffic islands; and
- Construction of new, wider bridges with new asphalt pavement, line marking, and signage.

Timing

Stage 1: Work on Hector Street Bridge has commenced and is anticipated to be completed in October 2020 – weather permitting.

Stage 2: Work on Wolumba Street Bridge / Boundary Road is expected to commence in October 2020 and is anticipated to be completed in March 2021 – weather permitting.

Altered conditions

Traffic control measures with detour routes for all vehicles will be in place 24 hours/day (see attached information). On-street parking and local access will be affected during works. We apologise for any inconvenience caused during the construction of these improvements.
